Subject: Re: ESA consultation for Hells Canyon temperature SSC

Good morning Hanh.

We are continuing to draft the biological opinion, and anticipate completing the initial draft by the middle of next week. I anticipate sending EPA a copy of excerpts of the draft biological opinion (i.e., the draft proposed action and draft conservation measures) by August 26.

Good morning, Johnna,

We have to provide a status report to the court next Monday regarding the ESA consultation process for the Hells Canyon SSC for temperature. When you have a minute, I would really appreciate a brief summary of where things stand on your end, in particular whether consultation has concluded and when we can expect to receive a draft BiOp.

As always, I appreciate all the great work that you do!
